

The deep roots of Mystic Vibrations began growth in Little London, Westmoreland, Jamaica and spread to the US in 1992 by Ric Williams. Credited to our name are two self released Studio Albums, (People Get Ready and Busy Street) and one Live recording (Live In Finlay Park). An abundant schedule keeps us constantly on the road touring the eastern US, from New York to Florida. The band is a four-piece rhythm section held by exceptionally talented musicians: Dion "Caution" Samuel (Drums), George "Raheem" Johnson (Bass), Marcus "Marky" Ruby (Keyboards and Backing Vocals) and Ric Williams (Guitar and Lead Vocals). The band has been blessed by establishing a large fan base that has steadily grown over the years. Our music speaks of Love, Unity, and Peace amongst all mankind; not forgetting the trials and tribulations of oppressed peoples.
